Previously:

Why do engineers need product managers?

Who needs managers?

Creating value is hard

Image: Zurich U.S. (Insurance), Wikipedia (I-35W Mississippi River bridge), Kai M. Caemmerer/kaimichael.com

Who needs managers?

Staying competitive is hard

Who needs managers?

Hidden assumptions

Who needs managers?

Technical skill \neq project success

Branding
Market segmentation
Compliance
User research
Stakeholder management
Strategic planning
Human resources
Fundraising
Culture building

Who needs managers?

Making software is risky and expensive

Who needs managers?

To build world-class products

Image: logos from respective owners (Facebook, Amazon, Netflix, Google)

“A good or service that most closely meets the requirements of a particular market and yields enough profit to justify its continued existence”

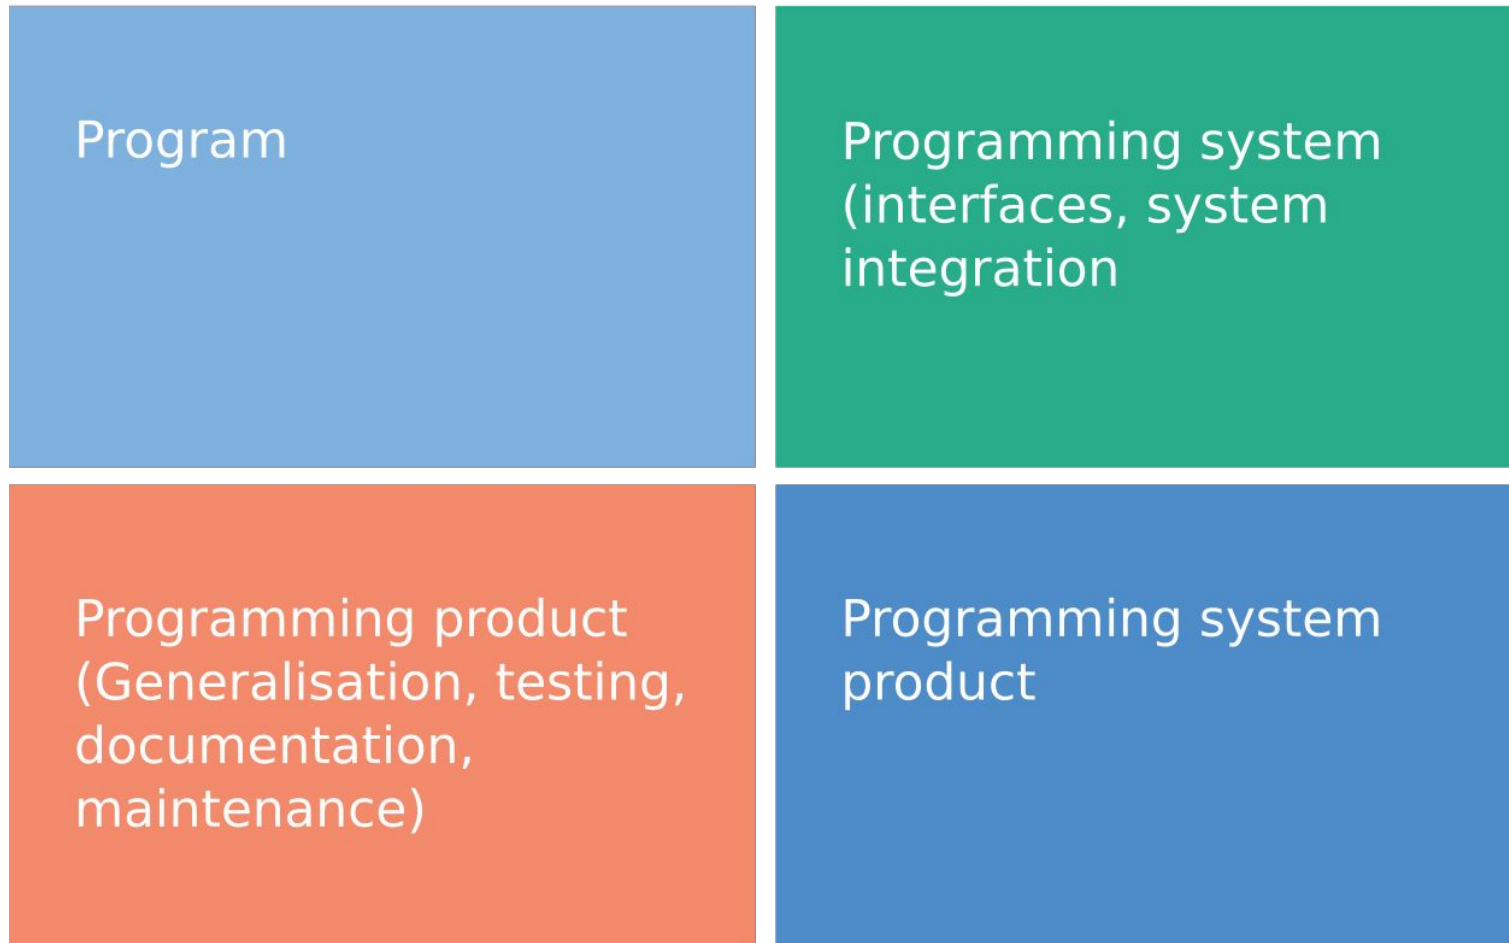

1. Produced
2. Distributed
3. Designed to be used / consumed
4. It's not (primarily) for you
5. Probably for many people

What's a product?

Fred Brooks – 1975

"Works for me"

"Works for everyone"

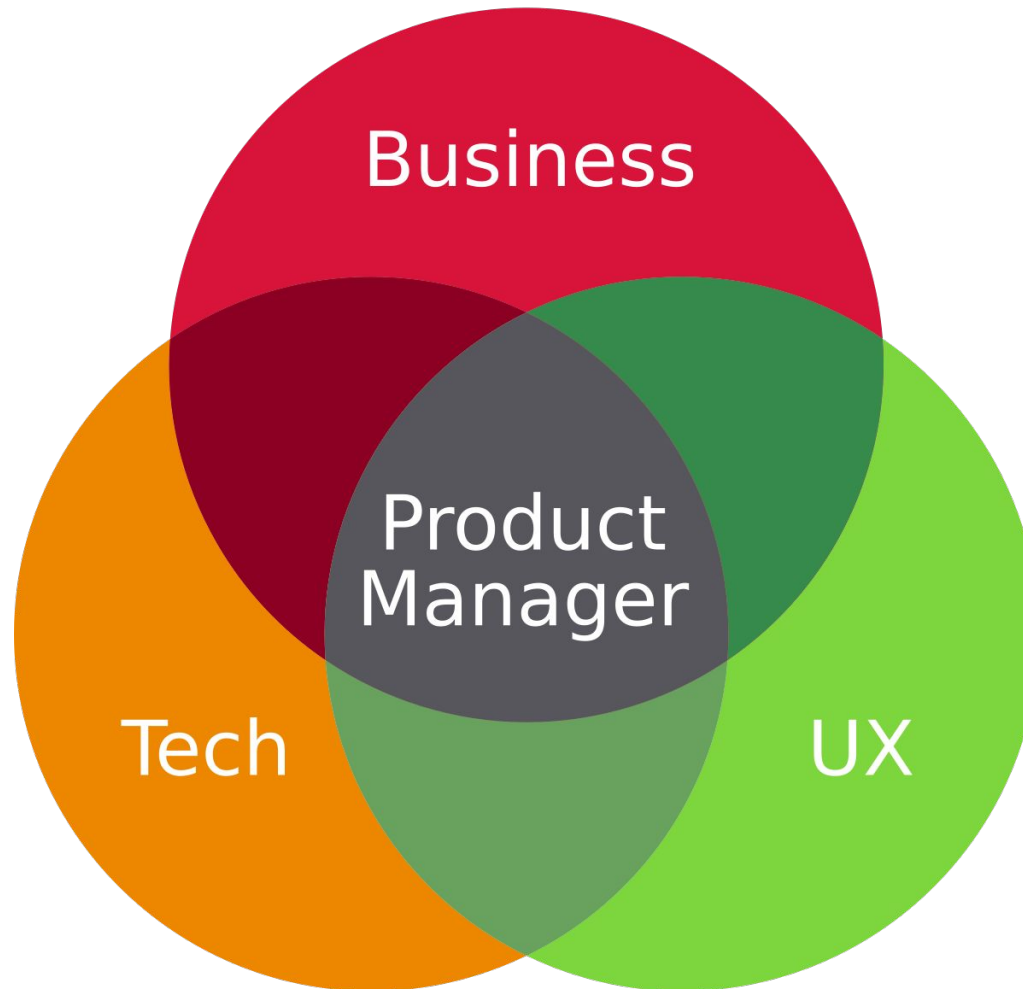

Making a great product is hard

What's a Product Manager?

Intersection of responsibilities

What's a Product Manager?

Some key activities

**User
research**

**Story
mapping**

Prototyping

Sprint mgmt

**Acceptance
testing**

**Metrics
monitoring**

OS PM challenges

More stakeholders - fewer options

- OS community
 - Users
 - Packagers
 - Documentors
 - Translators
 - Developers
 - Governance
- Business community
 - Independent service providers
 - Downstream integrators
 - Downstream forks

OS PM challenges

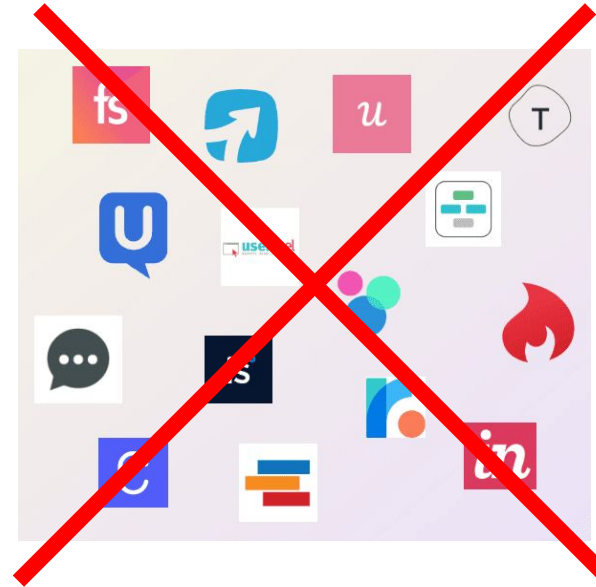

More transparency - less control

- Prioritisation
 - Formal vs informal
- Authority & expectations
 - Governance
- Multi-dimensional quality
 - Public criticism

- Security
 - reduced control
 - imperative priority
- Leadership discipline

- Fewer feedback loops
 - 🙅 Validated learning
 - Privacy is presumed
 - Apparatus is public
 - Double standards
 - Measurements removed
- Little UX insight
 - Hard to identify value
 - ∴ Hard to capture it
 - Very few OS tools

OS PM challenges

Culture clash

- Technical leadership
- Focus on output
- Downstream competition
- Focus & coherence is hard

- Dogfooding
- Large & diverse userbase
- Eager testers
 - High quality reports
 - Patches if you're lucky
- Frequent (self-selected) feedback
 - Cutting edge ideas
 - Diverse sources

Image: expatgourmand.blogspot.com

- Forces best practice
 - Automate everything
 - Document everything
 - Data mgmt + privacy
 - Fair governance (maybe)
- Innovative (hidden) uses
- Self-service adaptation
- Forkability

The upside

Those key activities

User
research

Story
mapping

Prototyping

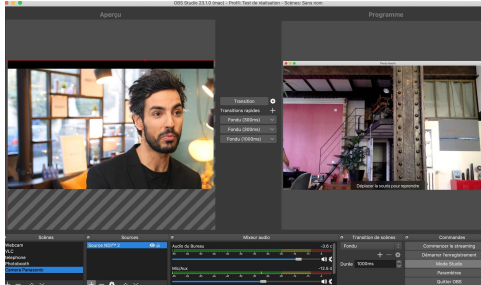

Backlog
mgmt

Acceptance
testing

Metrics
monitoring

The upside

Good Open Source PM Tools

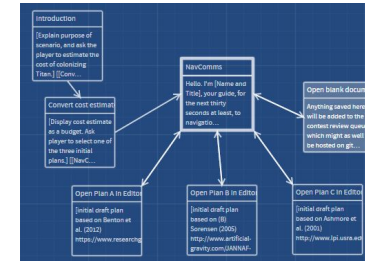

User research

- OBS Studio
- phpList

Test executions	
100% complete	Test run for Performance baseline TP at 2019-10-26 15:14:59 Started at 2019-10-26 15:14:59, 51.16 min. offlag
100% complete	Getting results for parallelize, master, CI Started at 2019-10-21, 2019, 51.12 min. offlag
100% complete	Getting results for parallelize, master, CI Started at 2019-10-21, 2019, 51.52 min. offlag
100% complete	A 10 for Quantiles / New TCMS demo Started at 2019-10-26, 2019, 11:14 min. offlag
10% complete	TS running logs from previous execution Started at 2019-10-26, 2019, 8:11 min. offlag
50% complete	Test run for a new TCMS ready for release Started at 2019-11-11, 2019, 2:19 min. offlag
0% complete	Verify Debian Stretch full check list Started at 2019-10-26, 2019, 9:25 min. offlag
17% complete	Test run for Conference readiness Started at 2019-10-23, 2019, 8:38 min. offlag
3 TestFunction or TestCases assigned to you need to be executed. Here are the latest 10. See All...	

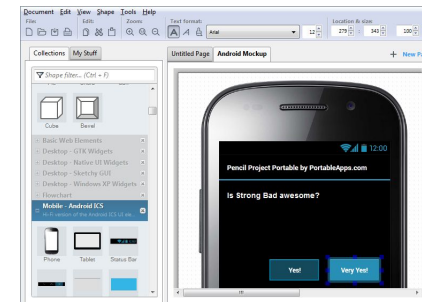

Acceptance testing

- Kiwi TCMS
- Phabricator
- (CI stacks)

Story mapping

- Post-its 🗑️
- Twinery

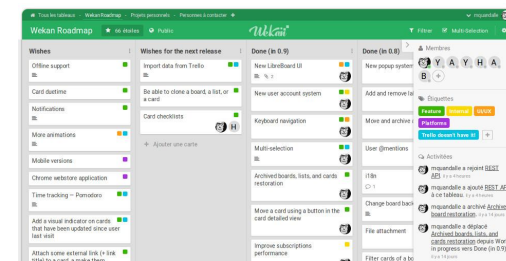

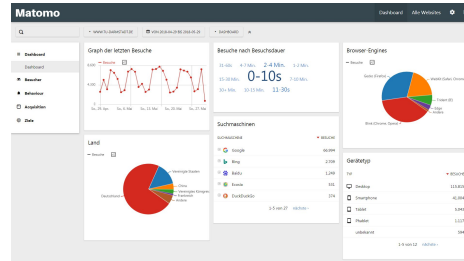

Prototyping

- Pencil app
- Presentator
- Alva
- WIP: UX Box & Akira

The upside

Good Open Source PM Tools

Metrics monitoring

- Matomo
- Open Web Analytics
- Countly
- Wasabi

Sprint management

- Taiga
- WeKan
- Open Project
- Tuleap

The goal

Better OS through Product Management

The goal

Better outcomes - more value
